Introduction

Paul Butterworth

Thank you for your interest in considering the role of a Trustee at The Seafarers’ Charity, a charity that has been improving the lives of those who work at sea, and their families for over 100 years.

We were established in 1917 as The King George’s Fund for Sailors, to support the families of seafarers lost at sea during World War One. As the United Kingdom is a nation with a rich maritime heritage, the need for this support has been recognised and continued down the years, within the UK and Commonwealth and now with a growing emphasis on seafarers across the world. We support seafarers and their families throughout their seafaring careers and beyond.

We are the largest independent grant funder of maritime welfare charities – with at least £2 million of funding injected into supporting the safety and welfare of seafarers each and every year. We are uniquely placed to deliver on our Mission because of our scale, history, independence, insight, influence, strong connections within the sector and our convening power.

It is always an exciting time to join our charity, but especially so now as we have just refreshed and updated our 2021 strategy - Thrive - as well as put in place a new communications strategy and updated fundraising strategy. We want to drive improvements in the lives of seafarers worldwide – these are set out as our five strategic outcomes.

We are very clear that strong governance is crucial to the strength of a charity and its ability to meet its charitable Purpose, Vision and Mission. We work to, and abide by, the Charity Governance Code as well as all Charity Commission regulations and recommendations, where relevant.

Our aim is to regularly bring in new Trustees as existing Trustees reach the end of their tenure. I invite you to consider applying for Chair of our Finance Committee. We welcome applications from those with a recognised financial qualification (e.g. FCA or other similar qualification), demonstrable skills in analysing financial proposals and accounts and in examining their consequences. Alongside good, independent judgement, we will also need a willingness to devote the necessary time and effort to effectively support the Charity.

We are looking for individuals who may currently or previously have worked as a Chief Finance Officer or Finance Director.

You will need to be interested in improving the welfare and safety of those who work at sea, including those who work in the fishing industry, in the Royal or Merchant Navies or on other vessels including cruise ships and professional yachts.

We want always to have a General Council (our Board of Trustees) that reflects and represents the communities we fund or support and the voices we champion; knowledge or work experience within the charity sector would be incredibly valuable too. We aim to rotate Trustees across all committees over their tenure.

If you join our trustee board, you will have the opportunity to make a real impact and be part of our success story. We are keen that our Trustees become more involved in promoting The Seafarers’ Charity and the causes we champion.

We very much look forward to hearing from you.

Paul Butterworth AFNI
Chair of the General Council
Trustee Specification

We are looking to appoint a Trustee, with a particular focus on finance, to join during 2024.

Our immediate need is for a Trustee who will, at the 2025 AGM, assume the role of Chair of our Finance and Audit Committee. This will allow a period to shadow the incumbent sub-committee Chair and will give you ample time to understand the Charity’s finances.

The role of the Finance and Audit Committee Chair is to maintain our ability to scrutinize, manage, report and make effective decisions based on our financial situation. You will work with the Finance Director to present and explain our finances to Trustees. Your background is likely to be as a Chief Finance Officer or Finance Director, holding a recognized financial qualification (e.g. FCA or other similar qualification) who has operated at Board level.
About
The Seafarers’ Charity

Who we are

The Seafarers’ Charity has been improving the lives of those who work at sea, and their families, for over 100 years. Established in 1917 as The King George’s Fund for Sailors, to support the families of seafarers lost at sea during World War One, we support seafarers throughout their seafaring careers and beyond. We are the largest independent grant funder of maritime welfare charities – with at least £2 million in funding injected into supporting the safety and welfare of seafarers each and every year.

Our vision and mission

Our vision is a world where seafarers and their families are free from need and disadvantage.

Our mission is to tackle the disadvantages of seafaring life by leading collaboration, funding and advocacy to improve seafarers’ lives.

What we do

We are built on two foundational pillars: fundraising and impactful grant-making.

For over 100 years, we have been the central fundraiser for maritime welfare. As a truly independent charity, we always put seafarer welfare first. We raise funds in order to make impactful grants, informed by our deep knowledge of the sector. Our long history of fundraising and funding key maritime welfare service providers positions us at the heart of an ‘ecosystem of support’ within the maritime sector.

We award funding to support a diverse range of partner organisations to deliver vital, targeted help where it’s needed most. We fund the essential cost of a strong network of maritime welfare services across the global sector, and – crucially – tackle seafarer hardship in all its forms; at sea and on land.

Our fundraising efforts see us both reaching out to interested individuals and partnering directly with industry and other bodies. We value the importance of reciprocal relationships: delivering a back and forth dialogue that brings learning and understanding for us and our partner organisations. This includes gathering evidence and data that can help us champion and advocate for seafarers more effectively, identify new areas to target, and raise more funds. By celebrating and sharing the results of our grant-making, we aim to continuously increase our fundraising – and continuously grow our impact.

Our Strategy

The long-term impact we want to achieve

Put simply, we believe a career at sea should be fulfilling, rewarding, safe, and free from the unique hardships that can be part of a life on board. Everything we do is about charting a course to make this a reality.

We want to drive improvements in the lives of seafarers globally – these are set out as five strategic outcomes to support long-term impact, and achieve:

- **Better working lives at sea**
- **Safer working lives at sea**
- **Enhanced financial resilience**
- **Increased health and wellbeing**
- **Improved social justice**

Our strategy looks ahead across 2024-2030, establishing the following three key pathways, creating a clear direction of travel for our Charity, without losing the great work underway in delivering against the existing framework:

- **Preventing hardship**: Amongst our grant recipients, we fund charities and non-profit organisations that provide a vital safety net in times of crisis, but ultimately our vision is for a world where rescues are not needed, and charitable support delivers more than a short-term, or one-off response.

- **Advocating for action**: Industries and governments have a vital role to play in ensuring that working at sea is a rewarding and safe career, whatever form it takes. Where we see gaps in industry action or in regulation or enforcement, we will work collaboratively, use our convening powers and our voice, and advocate for improvements to seafarers’ safety and welfare at sea.

- **Global impact**: We recognise that seafaring, by nature, is a global occupation. With seafaring careers taking men and women all over the world, and seafaring communities based in many different countries, our remit is broad and reflects the scale and breadth of the industries and people we support.

Our focus will increasingly be on preventing the causes of hardship experienced as a consequence of working at sea. We will better understand where opportunities to act preventatively exist, and we will assess our impact through this lens.
Equity, Diversity and Inclusion

We operate in increasingly diverse maritime communities and we understand that the organisations who we work with have people who have diverse characteristics and different experiences, needs and aspirations.

People with different backgrounds, age, skills, attitudes and experiences bring fresh ideas and perceptions. As a result, whilst we encourage anyone who meets the skills background and is interested to consider applying, we would particularly welcome applications from those groups currently under-represented on the General Council, which includes younger people.

Equity, Diversity and Inclusion work of the Charity

We are committed to being a diverse and inclusive charity to enable better support for seafarers, whether UK or Commonwealth citizens or international seafarers, as supported by our partner charities. Not only do we ensure we meet our statutory requirements in Equity, Diversity and Inclusion (EDI), we also aim to go beyond this by taking positive action and building a culture that champions diversity and inclusion internally as well as through supporting partner charities to achieve this.

It is clear that EDI is integral to good governance, thus we encourage those we fund to work towards the Charity Governance Code, with Principles 5 and 6 as a priority if not already addressed.

Our staff team are incredibly innovative in their work on diversity and you can find a selection of the areas that we are proud of on our website at: theseafarerscharity.org.
Living our Values

Crucially, we continue to be an organisation that is proud of not shying away from tackling difficult and complex systemic challenges – we fund research to understand the issues we work on, and then we use our voice, our convening power, and our willingness to collaborate, to bring positive change for seafaring communities. Through this approach, we work by – and exemplify – our values. We are:

**Driven by integrity**

We do the right thing. Compassion and transparency are embedded in how we work.

**Innately collaborative**

We inspire a culture of creative partnerships to achieve the best impact and outcomes.

**Proudly innovative**

We embrace effective new ideas and ways of working.

**Bold in our decisions and actions**

We ensure impact through brave and well-considered decision-making.
